ED Transfer Communication Project Resources

[Data Collection Tool for Emergency Department Transfer Communication Measures](#). An Excel-based data collection tool for ED Transfer Communication measures data collection. (1-worksheet Excel spreadsheet)

- [READ ME FIRST](#). A guide to the most important things to know about the data collection tool. Read this before using the tool! (2-page PDF)
- [Data Collection Tool Manual](#). This manual is designed to assist Critical Access Hospitals (CAH) in their ED Transfer Communication measures data collection and reporting using an Excel-based data collection tool. (27-page PDF)
- [Using the Tool for MBQIP Reporting](#). The EDTC Excel-based data collection tool can be used to obtaining numerator and denominator data that can be submitted for reporting to programs such as MBQIP. Instructions on how to identify the numerator and denominator on the report for MBQIP submission as well as options for producing a report that can be sent to your Flex Coordinator are included. The tool itself should NOT be emailed because once data is entered it contains PHI. (7-page PDF)

[Data Collection Guide for Emergency Department Transfer Communication Measures](#). A guide to the ED Transfer Communication measures, that aim to provide a means of assessing how well key patient information is communicated from an ED to any health care facility. (50-page PDF)

[Quality Improvement Toolkit for Emergency Department Transfer Communication Measures](#).

This toolkit is aimed at supporting hospitals in improving emergency department transfer communication. Includes a brief overview of the quality improvement process and how it can be applied, as well as tools and resources that can be adapted to support the transfer of critical patient information from the emergency department to other care settings. (17-page PDF)

Individual Toolkit Sections:

[Principles of Care Transitions from the Emergency Department](#) (6-page PDF)

- Care Transitions and the Emergency Department Overview
- American College of Emergency Physicians Care Transition Task Force Recommendations
- Safe Transfers and Hand-offs: Emergency Department Principles

[Developing an Action Plan](#) (9-page PDF)

- Quality Improvement Basics
- Establishing a Team
- Developing an Action Plan
- Implementing an Action Plan

[Sample Checklists, Logs, and Transfer Forms](#) (4-page PDF)

[Additional Resources](#) (5-page PDF)
